Maureen Wang structures Hong Kong IPOs and cross-border capital markets transactions for issuers and financial institutions, guiding each deal from initial reorganization through regulatory approval and successful listing.

Maureen brings a focused practice to the full lifecycle of Hong Kong Stock Exchange (HKEX) listings and cross-border capital markets transactions. She advises issuers, sponsors and underwriters on Hong Kong IPO, guiding clients from early-stage structuring through SFC regulatory review to listing and post-listing compliance. Her experience covers listing structure design, red-chip and H-share restructurings, due diligence, prospectus disclosure, responses to regulatory inquiries, and listing timetable management. Her transactional work spans a wide range of industries, including technology, new energy, manufacturing, chemical production, and financial services, giving her a grounded understanding of the sector-specific commercial pressures that shape each deal.

On the debt side, Maureen advises placing agents as international counsel on renminbi-denominated bond issuances listed on the Chongwa (Macao) Financial Asset Exchange, including transactions involving PRC local government-linked entities and multi-tranche further issues. Her experience on both the equity and debt sides of the capital markets allows her to anticipate the regulatory and timing sensitivities that can determine whether a transaction closes on schedule.

Maureen's practice is concentrated in the Greater China corridor, with particular depth in PRC-incorporated companies pursuing overseas listings and financing. She is admitted as a Hong Kong Registered Foreign Lawyer and is a member of the California Bar, positioning her to advise on transactions that touch multiple jurisdictions.
