Raveet structures cross-border estate plans and international tax strategies for high-net-worth individuals and family offices on both sides of the Atlantic.

Rav brings a rare dual qualification to his practice — admitted in both Illinois and England and Wales as a solicitor — allowing him to advise global clients on U.S., U.K., and international estate planning, trust administration, and tax matters from a single, integrated perspective.

Rav counsels high-net-worth individuals, business owners, and family offices on wealth preservation, family investment structures, and business succession planning. His cross-border estate planning practice spans more than 15 years, with particular depth in international tax compliance and the complexities of U.K. trust and estate law that often arise for clients with transatlantic ties.

For clients whose lives and assets do not fit neatly within one country's borders, Rav provides the kind of coordinated counsel that typically requires engaging separate legal teams in multiple jurisdictions.
