Tully Campbell structures syndicated financings, private debt transactions, and workouts so lenders and borrowers reach closing with the terms they need.

Tully brings a focused corporate finance and restructuring practice to clients navigating the full arc of a credit relationship — from origination to resolution. He advises lenders and borrowers on syndicated and bilateral financings, structured finance, and private debt as well as defaults and workouts when a deal requires recalibration. In addition to his corporate finance and restructuring practice, Tully regularly represents corporate trust and banking institutions as indenture trustees and agents in connection with domestic and cross-border capital markets. His prior representations include UMB Bank, Wilmington Trust, and U.S. Bank in project financing secured and unsecured transactions.

Tully also maintains an active pro bono practice, providing advice and full representation in family, housing, and employment matters for individuals who might otherwise go without counsel.
